The Colorado Student Perception Survey (SPS) is a powerful tool that teachers and administrators can use for reflection and guided professional growth. Should you want to view your results in the specific context of the Colorado State Model Evaluation System, you can use this document as a way to identify particular professional practices from the Rubric for Evaluating Colorado Teachers that corresponds to survey results.

The survey is organized into four elements:\(^1\)

- **Student Learning**: How teachers use content and pedagogical knowledge to help students learn, understand, and improve.
- **Student-Centered Environment**: How teachers create an environment that responds to individual students’ backgrounds, strengths, and interests.
- **Classroom Management**: How teachers foster a respectful and predictable learning environment.
- **Classroom Community**: How teachers cultivate a classroom learning community where student differences are valued.

In this document, we have provided examples of professional practices from the Rubric for Evaluating Colorado Teachers.\(^2\) They are linked to the four survey elements and provide a guide for focused exploration between teachers and their evaluators. The first element, **Student Learning**, primarily relates to Teacher Quality Standards I and III and the associated professional practices in the rubric. **Student Learning** comprises 15 survey items—more than any other element—that relate to both content and pedagogy. Through the survey development process, we learned that students experience instruction in a way that blends these two concepts together. As such, you will want to explore both of these aspects of teacher practice as you use survey results from this element to identify strengths and inform opportunities for professional growth.

The remaining three elements—**Student-Centered Environment**, **Classroom Community**, and **Classroom Management**—primarily relate to Standard II, as these are all crucial aspects of establishing a safe, inclusive, and respectful learning environment for a diverse population of students. These survey elements capture multiple aspects of classroom climate, from mutual respect and community-building to establishing routines that result in maximizing on-task behavior.

Please note that the survey elements are not mutually exclusive. Teaching is a complex profession, and you will find that statements from the survey apply to multiple professional practices across the Quality Standards. Likewise, you will find that not every professional practice for a given element in the Rubric for Evaluating Colorado Teachers applies directly to a survey element. This document provides a starting point for you to think about how to use the survey to inform conversations about educator effectiveness. We encourage you to establish a process in your district or school to identify how the survey will work best for you.

\(^1\)For a complete list of elements with survey items for grades 3-5 and 6-12, see pages 5-6. A number of items on the Colorado SPS were adapted from items made available for noncommercial use through the Measures of Effective Teaching (MET) project, funded by the Bill & Melinda Gates Foundation.

\(^2\)Rubric for Evaluating Colorado Teachers, updated August 1, 2013.
## Example Professional Practices for Focused Exploration of SPS Results

### Student Learning: How teachers use content and pedagogical knowledge to help students learn, understand, and improve³.

| **1D**     | - Develop a variety of explanations and multiple representations of concepts.  
- Build on the skills and knowledge learned in the classroom to engage in more complex concepts, ideas, and theories.  
- Use a variety of inquiry tools and strategies to:  
  - Learn content.  
  - Understand central concepts.  
  - Answer complex questions.  
  - Problem solve.  
- Routinely:  
  - Choose challenging tasks and instructional materials.  
  - Apply newly learned content skills to unique situations and different disciplines.  
  - Discuss ideas and content that are intellectually challenging to them. |
| - Breaks down concepts into instructional parts and teaches each part using appropriate, effective strategies and/or tools.  
- Uses instructional materials that are accurate, appropriate, and relevant for the lesson being taught.  
- Employs a variety of instructional strategies to address student needs.  
- Provides explanations of content that are:  
  - Accurate.  
  - Clear.  
  - Concise.  
  - Comprehensive.  
- Engages students in a variety of explanations and multiple representations of concepts and ideas.  
  - Engages students in a variety of inquiry methods to explore new ideas and theories. |
| **1E**     | - Make connections between other disciplines and/or content areas and the current lesson.  
- Accelerate their learning by elaborating on current lesson with connections to prior lessons within the content area and/or with other disciplines. |
| - Implements instructional strategies to ensure that instruction:  
  - Articulates content and interdisciplinary connections  
  - Integrates literacy skills across content areas  
  - Clarifies and elaborates on interdisciplinary connections for students  
  - Employs instructional strategies that include literacy, numeracy, and language development across content areas. |
| **3B**     | - Monitor their level of engagement.  
- Confer with the teacher to achieve learning targets.  
- Initiate activities to address their learning strengths and next steps.  
- Take academic risks. |
| - Has explicit student outcomes in mind for each lesson.  
- Aligns instruction with academic standards and student assessment results.  
- Encourages students to take academic risks.  
- Makes sure students meet learning objectives while increasing mastery levels. |
| **3E**     | - Help set their learning objectives.  
- Apply higher-order thinking and problem-solving skills to address challenging issues.  
- Monitor their progress toward achieving teacher’s high expectations.  
- Seek opportunities expand and enhance their problem-solving and higher order thinking skills. |
| - Has high expectations for all students.  
- Holds students accountable for their learning.  
- Sets student expectations at a level that challenges students.  
- Incorporates critical thinking and problem-solving skills.  
- Challenges all students to learn to their greatest ability.  
- Teaches higher-order thinking and problem-solving skills.  
- Ensures that students perform at levels meeting or exceeding expectations. |

Colorado’s Student Perception Survey - Grades 3-5

Student Learning: *How teachers use content and pedagogical knowledge to help students learn, understand, and improve.*

- The schoolwork we do helps me learn.
- What I learn in this class is useful to me in my real life.
- In this class, we learn a lot almost every day.
- My teacher makes sure that we think hard about things we read and write.
- When the work is too hard, my teacher helps me keep trying.
- In this class, it is more important to understand the lesson than to memorize the answers.
- My teacher uses a lot of different ways to explain things.
- My teacher knows when we understand the lesson and when we do not.
- Our classroom materials and supplies have a special place and things are easy to find.
- In this class, we learn to correct our mistakes.
- My teacher tells us what we are learning and why.
- My teacher asks questions to be sure we are following along.
- My teacher talks to me about my work to help me understand my mistakes.
- My teacher writes notes on my work that help me do better next time.
- The schoolwork we do is interesting.

Student-Centered Environment: *How teachers create an environment that responds to individual students’ backgrounds, strengths, and interests.*

- My teacher wants us to share what we think.
- My teacher teaches us to respect people's differences.
- My teacher knows what makes me excited about learning.
- My teacher talks about things we learn in other classes, subjects, and years.
- If I am sad or angry, my teacher helps me feel better.
- My teacher would notice if something was bothering me.
- The people we learn and read about in this class are like me.
- My teacher knows what my life is like outside of school.
- My teacher knows what is important to me.
- Students feel comfortable sharing their ideas in this class.

Classroom Community: *How teachers cultivate a classroom learning community where student differences are valued.*

- My teacher cares about me.
- In this class, I feel like I fit in.
- I feel like an important part of my classroom community.
- I ask for help when I need it.
- I feel like I do a good job in this class.

Classroom Management: *How teachers foster a respectful and predictable learning environment.*

- Our class stays busy and does not waste time.
- Students in my class are respectful to our teacher.
- My classmates behave the way my teacher wants them to.
- All of the kids in my class know what they are supposed to be doing and learning.
Student Learning: *How teachers use content and pedagogical knowledge to help students learn, understand, and improve.*

- My teacher makes learning enjoyable.
- What I learn in this class is useful to me in my real life.
- My teacher teaches things that are important to me.
- My teacher knows the things that make me excited about learning.
- In this class, we learn a lot every day.
- In this class, it is more important to understand the lesson than to memorize the answers.
- When the work is too hard, my teacher helps me keep trying.
- My teacher accepts nothing less than my best effort.
- My teacher knows when we understand the lesson and when we do not.
- If I don’t understand something, my teacher explains it a different way.
- My teacher explains difficult things clearly.
- In this class, we have a say in what we learn and do.
- My teacher talks to me about my work to help me understand my mistakes.
- My teacher writes notes on my work that help me improve.
- When we study a topic, my teacher makes connections to other subjects or classes.

Student-Centered Environment: *How teachers create an environment that responds to individual students’ backgrounds, strengths, and interests.*

- My classroom is organized and I know where to find what I need.
- Students feel comfortable sharing their ideas in this class.
- My teacher respects my opinions and suggestions.
- My teacher cares about me.
- My teacher pays attention to what all students are thinking and feeling.
- My teacher respects my cultural background.
- My teacher respects me as an individual.

Classroom Community: *How teachers cultivate a classroom learning community where student differences are valued.*

- My teacher would notice if something was bothering me.
- Our classroom materials (books, articles, videos, art, music, posters, etc.) reflect my cultural background.
- In this class, I feel like I fit in.
- I feel like an important part of this classroom community.
- My teacher knows what my life is like outside of school.
- My teacher knows what is important to me.
- I ask for help when I need it.
- I feel like I do a good job in this class.

Classroom Management: *How teachers foster a respectful and predictable learning environment.*

- Our class stays busy and does not waste time.
- Students in this class treat the teacher with respect.
- The students behave the way my teacher wants them to.
- Students in this class respect each other’s differences.
