

# EXPANDED LEARNING TIME

Expanded Learning Time is an opportunity for your child to further his/her education through engaging, hands-on experiences in partnership with his/her academic classes. Extended learning classes will show your child the value of academics through practical application, preparing them with the skills they need for the 21st Century. Allow your child to step outside the classroom to explore a world where math, history, science and literature have a fun, functional purpose.

*Through community partner programs, your student will have the chance to explore activities related to:*

- ⊕ OUTDOOR ACTIVITIES
- ⊕ ART & THEATRE
- ⊕ LEADERSHIP SKILLS
  
- ⊕ SOCIAL & PROFESSIONAL SKILLS
- ⊕ HEALTH & PHYSICAL FITNESS
- ⊕ HUMANITIES
  
- ⊕ FOREIGN LANGUAGES
- ⊕ STEM - SCIENCE, TECHNOLOGY, ENGINEERING & MATH
- ⊕ SPECIAL INTERESTS

Take a look at the attached brochure and talk with your child about what classes he/she would like to participate in this school year!
