

# Leaders in Local Innovation: Measuring What Matters in Colorado Communities

---

Jennifer Douglas, Founder of New Legacy Charter School

Jim Griffin, Momentum Strategy and Research

Mike Post, Principal at Chaffee County High School

Lisa Yates, Superintendent of Buena Vista School District

# Introduction

---

- Innovative accountability projects responsive to local accountability demands:
  - Student-Centered Accountability Project (S-CAP)
    - Using school review process to share timely, actionable feedback based on interests/needs of the community
  - Opportunity Measure Demonstration Project (OMDP)
    - Looking at unique measures, which include a blend of qualitative and quantitative data, that go through an external review process

# Student-Centered Accountability Program

---

## Vision

The Student-Centered Accountability Program seeks to promote and implement an accountability system that is timely, meaningful, considers the whole child and engages community stakeholders in a continuous cycle of improvement and innovation supported by a network of peers.

# S-CAP Core Values

---

1. Accountability systems are designed to emphasize **every** student and the **whole** student.

**S-CAP Result:** Added measures beyond state test scores, including additional academic measures and new learning dispositions measures.

# S-CAP Core Values

---

2. Accountability means **continuous improvement**

**S-CAP Result:** Integrates the evaluation of the **systems** intended to support meaningful learning for every student in order to *uncover weaknesses* and *highlight strengths* to build strategic plans of continuous improvement.

# S-CAP Core Values

---

3. Accountability impact increases with **local stakeholder** investment .

**S-CAP Result:** Local Boards review multiple student data and results from system site reviews directly connected to district priority needs.

# Student-Centered ACCOUNTABILITY PROGRAM

**timely**

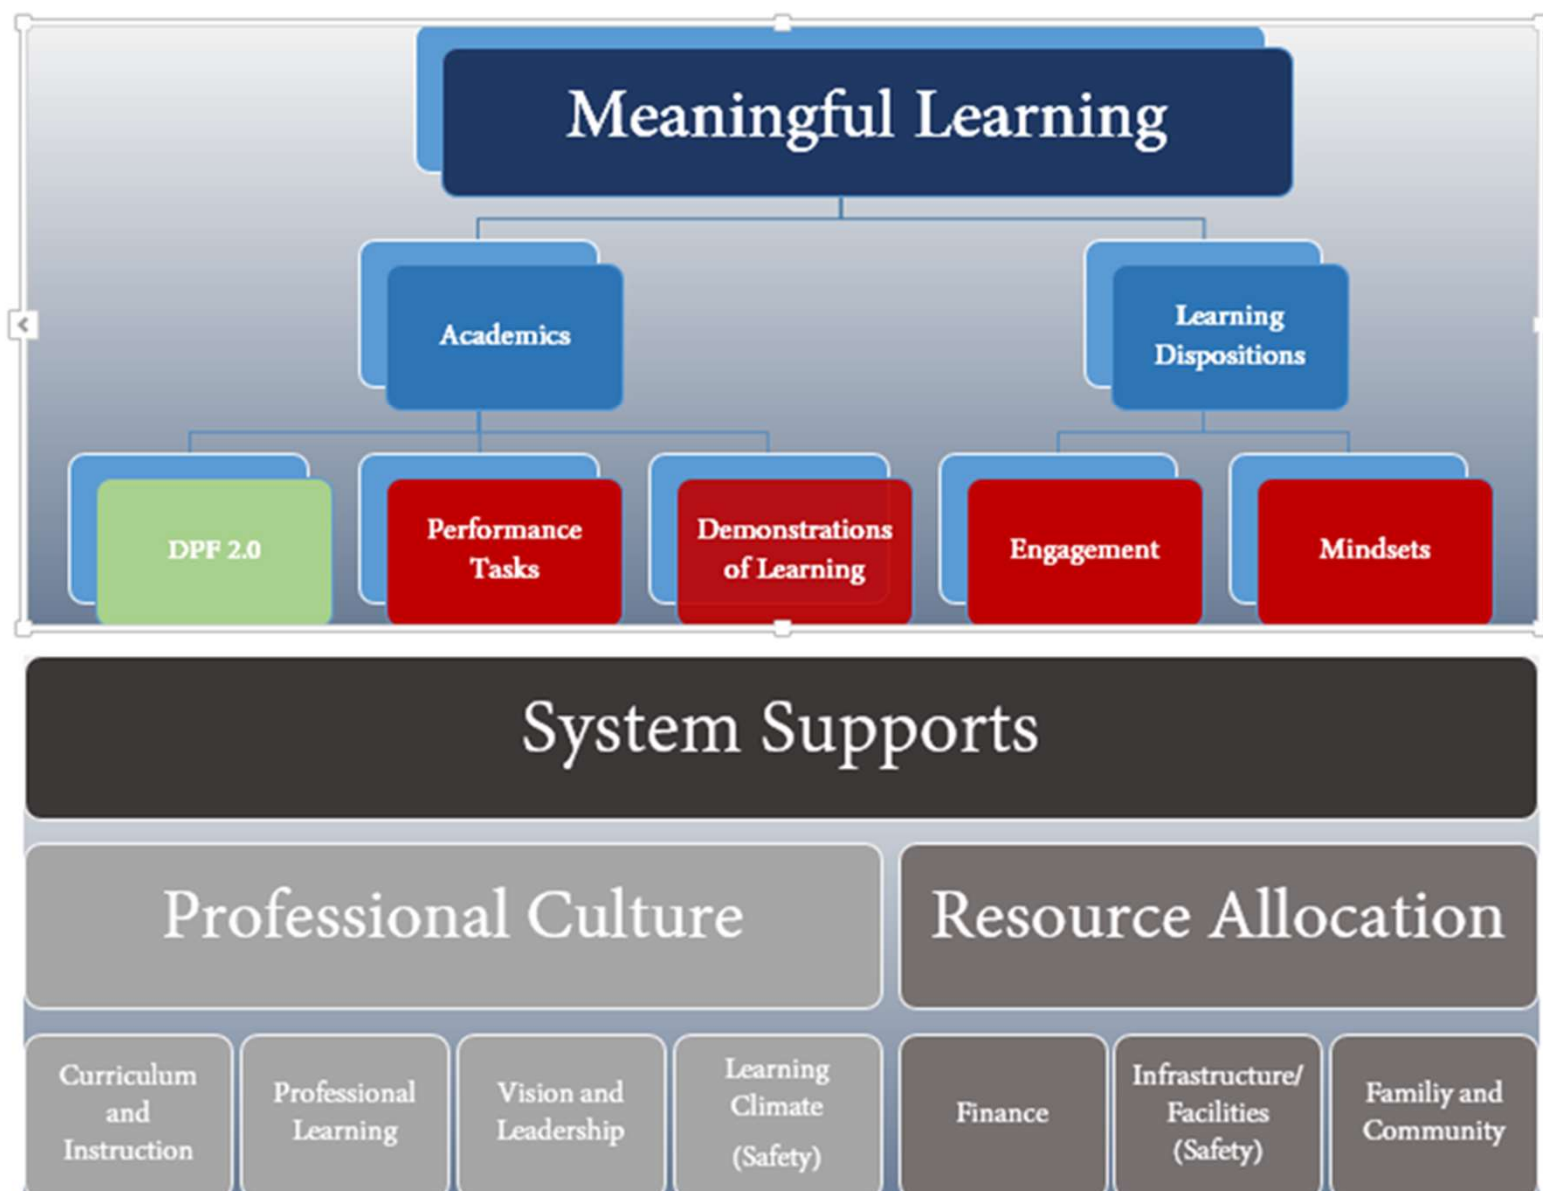

**meaningful**

**considers the whole child**

**engages community stakeholders in a  
continuous cycle of  
improvement and innovation**

**Supported by a network of peers**

Accountability = Continuous Improvement

## BUENA VISTA SCHOOL DISTRICT STRATEGIC PRIORITIES

*How do we reach the peak of success?*

**1**

Build Professional and  
Community  
COLLABORATIVES

**2**

Instruct with focus on  
THINKING STRATEGIES  
and FEEDBACK

**3**

Create Spaces of  
OPTIMISM

**4**

Establish SAFE and  
HEALTHY Learning  
Spaces

# The Core Districts

# Background on Opportunity Measure Project

---

- 2015 AEC Workgroup called for integrating qualitative measures in the School Performance Framework by: *“capturing the essential unique qualities of effective AECs, and including additional performance measures that are relevant to a school’s unique design or mission”*
- Opportunity Measure Demonstration Project
  - Consortium of AECs with support from Momentum
  - Provides a process to validate unique measures – aka Opportunity Measures

# Opportunity Measure Project

---

- 2017-18 Participants
  - 11 schools submitted for full review, others participated as panelists
  - Included a wide range of schools – representing different parts of Colorado, charters and non-charters, various school sizes, programmatic focus, and students served
- 2017-18 Highlights & Findings
  - Wide range of “Opportunity Measures” specific to school missions
  - Without incentives, data not routinely collected at accountability-quality level
  - Emphasis on interim measures

# Questions for Participant of Both Projects

---

- What similarities do you see in the two projects?
- What lessons can we take away from these efforts?
- What do these efforts say about state accountability in general?

# Challenges to Local Measures of Innovation

---

- Incentives/momentum
- Lack of uniformity/comparison data
  - Scalability/sustainability
  - Third-party involvement
